Free Cash Flow is GAAP net cash provided by (used in) operating activities, less cash used for purchases of property and equipment and capitalized internal-use software costs. #### **Financial Outlook:**

The fourth quarter and full year 2024 outlook information provided below is based on Amplitude's current estimates and is not a guarantee of future performance. These statements are forward-looking and actual results may differ materially. Refer to the "Forward-Looking Statements" section below for information on the factors that could cause Amplitude's actual results to differ materially from these forward-looking statements.

For the fourth quarter and full year 2024, the Company expects:

	Fourth Quarter 2024	Full Year 2024
Revenue	\$76.0 - \$77.0 million	\$297.1 - \$298.1 million
Non-GAAP Operating Income (Loss)	\$(2.1) - \$(0.1) million	\$(6.3) - \$(4.3) million
Non-GAAP Net Income (Loss) Per Share	\$0.00 - \$0.01	\$0.04 - \$0.06
Weighted Average Shares Outstanding	134.9 million, diluted	131.7 million, diluted

An outlook for GAAP income (loss) from operations, GAAP net income (loss), GAAP net income (loss) per share and a reconciliation of expected non-GAAP income (loss) from operations to GAAP income (loss) from operations, expected non-GAAP net income (loss) to GAAP net income (loss), and expected non-GAAP net income (loss) per share to GAAP net income (loss) per share have not been provided as the quantification of certain items included in the calculation of GAAP income (loss) from operations, GAAP net income (loss) and GAAP net income (loss) per share cannot be reasonably calculated or predicted at this time without unreasonable efforts. For example, the non-GAAP adjustment for stock-based compensation expense requires additional inputs such as the number and value of awards granted that are not currently ascertainable, and the non-GAAP adjustment for amortization of acquired intangible assets depends on the timing and value of intangible assets acquired that cannot be accurately forecasted.

#### Forward-Looking Statements:

This press release contains express and implied "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the Company's financial outlook for the fourth

quarter and full year 2024, the Company's growth strategy and business aspirations and its market position and market opportunity. These statements are often, but not always, made through the use of words or phrases such as "may," "should," "could," "predict," "potential," "believe," "expect," "continue," "will," "anticipate," "seek," "estimate," "intend," "plan," "projection," "would," and "outlook," or the negative version of those words or phrases or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not statements of historical fact, and are based on current expectations, estimates, and projections about the Company's industry as well as certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond the Company's control. These statements are subject to numerous uncertainties and risks that could cause actual results, performance, or achievement to differ materially and adversely from those anticipated or implied in the statements, including risks related to: the Company's limited operating history and rapid growth over the last several years, which makes it difficult to forecast the Company's future results of operations; the Company's history of losses; any decline in the Company's customer retention or expansion of its commercial relationships with existing customers or an inability to attract new customers; expected fluctuations in the Company's financial results, making it difficult to project future results; the Company's focus on sales to larger organizations and potentially increased dependency on those relationships, which may increase the variability of the Company's sales cycles and results of operations; downturns or upturns in new sales, which may not be immediately reflected in the Company's results of operations and may be difficult to discern; unfavorable conditions in the Company's industry or the global economy, or reductions in information technology spending, which could limit the Company's ability to grow its business; the market for SaaS applications, which may develop more slowly than the Company expects or decline; the Company's intellectual property rights, which may not protect its business or provide the Company with a competitive advantage; evolving privacy and other data-related laws; and the impact of new sanctions related to Russia on the Company's ability to collect receivables. Additional risks and uncertainties that could cause actual outcomes and results to differ materially from those contemplated by the forward-looking statements are or will be included under the caption "Risk Factors" and elsewhere in the reports and other documents that the Company files with the Securities and Exchange Commission from time to time, including the Company's Quarterly Report on Form 10-Q being filed at or around the date hereof. The forward-looking statements made in this press release relate only to events as of the date on which the statements are made. The Company undertakes no obligation to update any forward-looking statements made in this press release to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law.

#### **Non-GAAP Financial Measures:**

This press release includes financial information that has not been prepared in accordance with GAAP. The Company uses non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors, as a supplement to GAAP measures, in evaluating the Company's ongoing operational performance. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the Company's financial results with other companies in the industry, many of which present similar non-GAAP financial measures to investors. There are a number of limitations related to the use of non-GAAP financial measures versus comparable financial measures determined under GAAP. For example, other companies in the Company's industry may calculate these non-GAAP financial measures differently or may use other measures to evaluate their performance. In addition, Free Cash Flow does not reflect the Company's future contractual commitments and the total increase or decrease of its cash balance for a given period.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. A reconciliation of the Company's non-GAAP financial measures to their most directly comparable GAAP measures has been provided in the financial statement tables included below in this press release. Investors are encouraged to review the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures below.

Non-GAAP Gross Profit, Non-GAAP Gross Margin, Non-GAAP Operating Expenses, Non-GAAP Income (Loss) from Operations, Non-GAAP Operating Margin, Non-GAAP Net Income (Loss), and Non-GAAP Net Income (Loss) per Share:

The Company defines these non-GAAP financial measures as their respective GAAP measures, excluding expenses related to stock-based compensation expense and related employer payroll taxes, amortization of acquired intangible assets, and non-recurring costs such as restructuring and other related charges. The Company excludes stock-based compensation expense and related employer payroll taxes, which is a non-cash expense, from certain of its

non-GAAP financial measures because it believes that excluding this item provides meaningful supplemental information regarding operational performance. The Company excludes amortization of intangible assets, which is a non-cash expense, related to business combinations from certain of its non-GAAP financial measures because such expenses are related to business combinations and have no direct correlation to the operation of the Company's business. Although the Company excludes these expenses from certain non-GAAP financial measures, the revenue from acquired companies subsequent to the date of acquisition is reflected in these measures and the acquired intangible assets contribute to the Company's revenue generation. The Company excludes non-recurring costs from certain of its non-GAAP financial measures because such expenses do not repeat period over period and are not reflective of the ongoing operation of the Company's business.

The Company uses non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP income (loss) from operations, non-GAAP operating margin, non-GAAP net income (loss), and non-GAAP net income (loss) per share in conjunction with its traditional GAAP measures to evaluate the Company's financial performance. The Company believes that these measures provide its management, board of directors, and investors consistency and comparability with its past financial performance and facilitates period-to-period comparisons of operations.

#### Free Cash Flow and Free Cash Flow Margin:

The Company defines Free Cash Flow as net cash provided by (used in) operating activities, less cash used for purchases of property and equipment and capitalized internal-use software costs. Free Cash Flow margin is calculated as Free Cash Flow divided by total revenue. The Company believes that Free Cash Flow and Free Cash Flow margin are useful indicators of liquidity that provides its management, board of directors, and investors with information about its future ability to generate or use cash to enhance the strength of its balance sheet and further invest in its business and pursue potential strategic initiatives.

#### **Definitions of Business Metrics:**

#### Annual Recurring Revenue

The Company defines Annual Recurring Revenue ("ARR") as the annual recurring revenue of subscription agreements, including certain premium professional services that are subject to contractual subscription terms, at a point in time based on the terms of customers' contracts. ARR should be viewed independently of revenue, and does not represent the Company's GAAP revenue on an annualized basis, as it is an operating metric that can be impacted by contract start and end dates and renewal rates. ARR is also not intended to be a forecast of revenue.

#### Dollar-Based Net Retention Rate

The Company calculates dollar-based net retention rate as of a period end by starting with the ARR from the cohort of all customers as of 12 months prior to such period-end (the "Prior Period ARR"). The Company then calculates the ARR from these same customers as of the current period-end (the "Current Period ARR"). Current Period ARR includes any expansion and is net of contraction or attrition over the last 12 months, but excludes ARR from new customers as well as any overage charges in the current period. The Company then divides the total Current Period ARR by the total Prior Period ARR to arrive at the dollar-based net retention rate ("NRR"). The Company then calculates the weighted average of the trailing 12-month dollar-based net retention rates, to arrive at the trailing 12-month dollar-based net retention rate ("NRR (TTM)").

#### Paying Customers

For purposes of customer count, a customer is defined as an entity that has a unique Dunn & Bradstreet Global Ultimate ("GULT") Data Universal Numbering System ("DUNS") number and an active subscription contract as of the measurement date. The DUNS number is a global standard for business identification and tracking. The Company makes exceptions for holding companies, government entities, and other organizations for which the GULT, in the Company's judgment, does not accurately represent the Amplitude customer or the DUNS does not exist.
